

Concentrate Cherry Juice

Product Description

Immunotec Concentrate Cherry Juice is an extract of the Montmorency cherry, which is one of the world's finest sources of melatonin. Melatonin is the chemical that your brain makes to help you sleep. These cherries are also one of the richest known sources of a class of antioxidants (anthocyanins) that support cellular, cardiovascular and joint health. Immunotec Concentrate Cherry Juice makes it easy for you to enjoy the health benefits of this extraordinary fruit every day for optimal health all year long.

Complementary Products

PNT 200. Poor sleep and stress go hand-in-hand. If you know that stress has an impact on your sleep, then combining Concentrate Cherry Juice with PNT 200 may be a perfect solution.

Omega-3. If you are looking to support joint or cardiovascular health, this is the ideal combination.

Immunocal or Immunocal Platinum.

Antioxidants all work together to support each other. The antioxidants in Concentrate Cherry Juice act synergistically with the antioxidant power of Immunocal products.
