

Immunocal®

Product Description

Immunocal is a patented natural health product that is over 90% pure protein and has a biological value higher than any other protein supplement or food available. The term “biological value” (BV) is a ranking of important edible proteins in your body.

Taken daily, Immunocal will raise your body’s concentration of glutathione, a molecule referred to as “Your Body’s Most Important Protector”.

Glutathione is the body’s own health “AID to Energy”– Antioxidant, Immune Booster, Detoxifier and Energy enhancer. This small protein, produced naturally in the body, supports these four crucial functions. In fact, your life depends upon glutathione. Without it, your cells would disintegrate from unrestrained oxidation, your body would have little resistance to bacteria, viruses and cancer, and your liver would cease functioning from the accumulation of toxins.

Highlight Ingredients

Immunocal is not just any whey protein product. This patented isolate from whey is specially prepared to provide a rich source of bioavailable cysteine. Following digestion, the cysteine remains as the stable form cystine (2 molecules of cysteine linked by a disulfide bond) and glutamylcystine. In common processing these molecules are destroyed causing the cysteine availability to be greatly decreased, preventing the product from having the desired effect. Immunocal has been extensively studied to effectively deliver cysteine and naturally boost glutathione levels.

Complementary Products

Daily Essentials Pack. Your Daily Essentials Pack supplies you with optimized levels of vitamins, minerals and fatty acids for the support of good health and well-being. You need all your essential nutrients each and every day to maintain healthy cellular function. These nutrients also serve to enhance the effect of glutathione.

Features

- The leader in the field of natural immune-enhancing products
- Scientifically proven effective
- Listed in the **U.S. Physician’s Desk Reference (PDR)**, the **Pharmacist’s Red Book**, and the **2009 Compendium of Pharmaceuticals and Specialties (CPS)**

Benefits

Immunocal is a natural protein that addresses several critical factors affecting your quality of life.

Immunocal can:

- Increase your body’s ability to fight off free radicals by optimizing its antioxidant production
- Maintain your immune defenses
- Enhance your energy and sense of well-being

Daily Usage:

Use two pouches daily in your favourite juice. Immunocal can also be added to soft foods such as applesauce or yogurt.
