

## Cherry Concentrate

### Product Description

Immunotec Cherry Concentrate—is a concentrate of the Montmorency cherry, one of the world's finest sources of melatonin, the same chemical that your brain makes to help you sleep. These cherries are also one of the richest known sources of a class of antioxidants (anthocyanins). Immunotec Cherry Concentrate makes it easy for you to enjoy the health benefits of this extraordinary fruit every day all year long.

### Complementary Products

**PNT 200.** If you know that stress has an impact on your sleep, then combining Immunotec Cherry Concentrate with PNT 200 may be a perfect solution.

**Omega-3.** If you are looking to support cardiovascular health, this is the ideal combination.

#### **Immunocal or Immunocal Platinum.**

Antioxidants all work together to support each other. The antioxidants in Immunotec Cherry Concentrate act synergistically with the antioxidant power of Immunocal products.
