

## Magistral®

### Product Description

The prostate gland plays an important role in both urinary function and sexual health. As men get older, their prostate keeps growing, resulting in uncomfortable symptoms. Studies indicate that half of men over the age of 40 have symptoms of prostate enlargement, and this number increases with age.

Magistral is a fast-acting and natural liquid remedy that consistently helps support and maintain prostate health, in turn promoting life-long vitality.

### Complementary Products

**Omega-3 with Turmeric.** Omega-3 fatty acids promote the production of hormone-like substances in the body called prostaglandins. Omega-3 is an excellent addition to the proprietary extract and herbs in Magistral.

**Vitamin and Mineral Supplement with Chlorella.** The Immunotec Vitamin and Mineral Supplement supplies the minerals zinc and copper which are supportive of a healthy prostate.

### Highlight Ingredients

**Saw Palmetto (*Serenoa repens*).** Saw Palmetto is the single best-studied herb for prostate health. It has been the subject of more than 20 clinical trials involving over 3,000 men. Magistral uses a proprietary technology to create a liquid extract of the active portion of the whole Saw Palmetto berry, giving this extract a much higher bioactivity than most commercial products.

**Damiana (*Turnera diffusa*) and Muira Puama (*Acanthea virilis*).** Traditional herbs used for sexual vitality.

**Ginseng (*Panax ginseng*).** Ginseng has been used as an herbal medicine for over 2,000 years. In traditional Chinese medicine, ginseng is considered to be the most potent plant for stimulating energy and vitality. The Greeks gave it the name “panax” meaning panacea and promoted its health-giving properties for almost everything.

**Ginkgo (*Ginkgo biloba*).** While the best known uses of this plant are for brain health, Ginkgo has also been studied to support sexual health.

### Features

- Natural
- Safe
- Proven to support prostate function
- Fast and effective
- Potent

### Benefits

- Consistently supports and maintains good prostate health
- Supports sexual health and vitality

### Daily Usage:

One tablespoon daily for the support and maintenance of good prostate health.
